Pass the Prize

As the host reads the poem aloud, guests follow the phrases to pass the prize around.

1. _____ is having a baby. Whoopee! The gift starts just to the right of me!
2. I might start a little curt, the gift goes to the one with the most colorful shirt.
3. If someone wears clothes of blue, she must take the gift from you. If a blue outfit cannot be seen, it goes to the one with the most green.
4. I will now read another verse...pass it to the girl with the biggest purse!
5. Wow, that was a success! Hand it to the one with more buttons on her dress.
6. Sorry! This gift is not for you. It moves to the girl with the biggest shoe!
7. Unless you are wearing a shirt of white, pass it two spots over to the right.
8. Let's get this party started girls! Pass it to the one with the cutest curls!
9. _____ is anxious, _____ is nervous- now pass this to the one who drove the furthest.
10. Now I'm going to raise my voice! Pass the gift to the guest of your choice.
11. I am so sorry, your luck has run dry. Pass it to your left, and please don't cry.
12. There's no time to practice, no way to rehearse. It goes to the one with the smallest purse!
13. Things are getting tricky, here's a real humdinger! Pass the gift to the gal with the most rings on her finger!
14. I hope you all are having fun, I've tried to include most everyone. From the largest purse to the curliest 'do, pass it just to the right of you!
15. Now I'm running out of rhymes, pass it to the right one last time!
16. I'm ending this game, this is the last poem. The gift you are holding is yours to take home!

Seri ini pada dasarnya bertindak sebagai jembatan antara permainan Harvest Moon klasik dan modern.. Meskipun ada banyak fitur unik di dalamnya dan juga berbagai hal yang menyenangkan, game ini terasa kurang lengkap, menurut saya.. Game ini mengambil seri Harvest Moon ke arah yang lebih baik dengan menawarkan pengalaman bermain peran yang lebih dalam dan lebih kuat daripada judul masa lalu.

Ditambah cerita yang unik plus grafik yang sederhana namun memukau membuat game ini menjadi incaran semua penggemar simulasi.. Di seri ini ada berbagai macam karakter baru yang masing-masing memiliki kepribadiannya yang unik.. Disini juga termasuk kemampuan untuk mengumpulkan dan memasak resep, gerakan karakter yang unik dan kemampuan untuk mendapatkan benda-benda yang bermanfaat untuk kebutuhan dan fungsi bermain.
